In claim 1:

“detecting login packets being communicated over the network;  
determining a MAC address from the login packets;  
detecting server message block login packets being communicated over the network;  
determining an IP address from the server message block login packets; and developing records in the access control list using the obtained IP address for the respective user name;  
DNS names into corresponding IP addresses according to data in the enhanced access control list; and  
physical addresses into IP addresses according to data in the enhanced access control list; and  
developing, in the network switch, the access control list from each of the operations of converting.”

In claim 9:

a processor coupled to the forwarding circuit and to the memory circuit, the processor operable to define the specific packets detected by the forwarding circuit and operable to process the specific packets stored in the memory circuit using the enhanced access control list to generate

the dynamic access control list and store the dynamic access control list in the memory circuit, and further operable to provide the specific packets to the processor port of the forwarding circuit after processing the packets. “

In claim 22:

“a memory circuit coupled to the forwarding circuit, the memory circuit operable to store packets and operable to store an enhanced access control list and a dynamic access control list; and

a processor coupled to the forwarding circuit and to the memory circuit, the processor operable to define the specific packets detected by the forwarding circuit and operable to process the specific packets stored in the memory circuit using the enhanced access control list to generate the dynamic access control list and store the dynamic access control list in the memory circuit, and further operable to provide the specific packets to the processor port of the forwarding circuit after processing the packets; and a plurality of hosts, each host coupled to a respective port of the network switch.”

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of
